

BESPOKE WEDDING

FLORALS

BY THE WILD ZINNIA

YOUR FLORISTS

Hi.

We're glad you've found us.

We're Roz and Debs, flower farmers and florists, growing beautiful flowers in step with season.

We run a small scale flower farm just north of Bristol where we practise regenerative farming to grow flowers as they're meant to be: ethereal, delicate, full of fragrance and dancing.

As florists we take inspiration from the flowers that we grow as they are found in the moment. We never force flowers to grow when they don't want to and they thank us for it - being all the more beautiful and perfect for whimsical and natural weddings.

WHY CHOOSE US?

As flower farmers and florists, our floral designs are rooted in nature. Designing with our field-grown flowers is key to our whimsical and natural style, harnessing movement, fragrance and texture, for floral arrangements that are as unique as each couple we work with.

Our design philosophy is centred on using sustainably grown British ingredients to bring your vision to life. As such, we don't limit our designs around one particular flower variety. Instead we get to know you and your vision and we use what is seasonally available to bring it to life. The results are magic.

Unique to flower growers, is the opportunity to visit the farm and see where your flowers will have been grown. Our couples have truly valued their farm visits, delighting in the tranquil setting of our farm in amongst the busyness of wedding planning and getting a little preview before the big day.

It doesn't matter if you come knowing a lot or a little about seasonal flowers; walking around a flower farm gives you a much more personal connection to your flowers. You may arrive not knowing exactly what you want, but you'll leave delighted in what you've seen.

YOUR JOURNEY WITH US

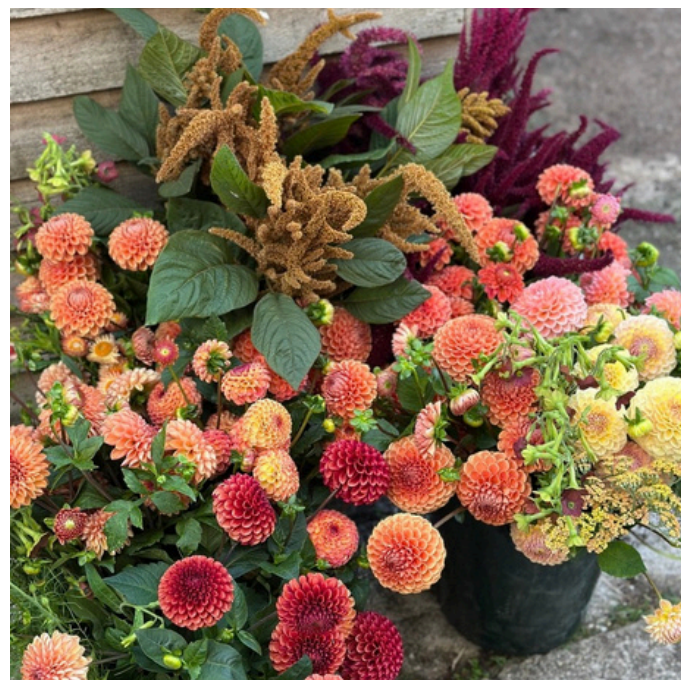

The first step is an initial consultation. In this chat, we'll get to know you a little bit, find out what your vision is for your day, talk venue and budget (it's very helpful to know your budget at this stage so that we can guide you on realistic florals for your budget). This gives us all the information we need to provide an estimate and a mood board.

We ask for either a £100 deposit or 10% booking fee to secure us for your wedding day and this is taken off the final invoice.

We'll then get back in touch with you about 6 weeks before the wedding to arrange a final consultation finalise the last few details and to send the final invoice.

We will then harvest, arrange and deliver your arrangements.

EVENT BUCKETS

At our core, we are a flower farm growing impossibly beautiful, high-quality flowers, and we absolutely love the reactions on our customers' faces when they see just how wonderful seasonal, British-grown blooms can be.

Our Event Buckets bring that abundance straight from our field to your celebration. Each bucket is harvested in the days before your wedding and filled with a generous mix of focal flowers, delicate fillers and foliage, all chosen to sit beautifully together in your colour palette.

Every stem is carefully conditioned, so your flowers arrive ready to arrange and will last throughout your day. They are perfect for couples who love the idea of gathering friends and family to fill jars and bud vases, or for creating relaxed, meadow-style tables with a personal touch.

Each bucket has approximately 50 stems which would make about bud vases or 4 jam jars.

Event Buckets are available for collection from the farm the day before your wedding, or we can deliver locally.

BOUQUETS AND BUTTONHOLES

Arguably the most important flowers of the day and the ones that we design the rest of your flowers around. These will feature in almost every photograph of your day and we take such joy to design and arrange your personal items.

You have the option for your bouquets to be tied with hessian or heirloom botanically dyed silk ribbons. They are given to you in a vase of water so they remain hydrated and fresh up until the moment you need them to shine.

We can have them made and ready for collection the day before your wedding, especially useful for elopements, or we can deliver them locally.

KIND WORDS

I can't express how grateful I am for the flowers you provided! I always wanted to have locally sourced flowers with a meadow feeling and you made it even better than I imagined it could be. They continued to throw out new blooms during the day with so many treats to look at!

My bouquet was so dreamy and my breath was taken away when we went into the dining room and the bud vases looked like the most perfect meadow!

The venue and guests all commented on how beautiful the flowers were and the scent coming from them was just amazing!

KIND WORDS

Roz and Debs supplied the flowers for our August wedding, and we were so pleased with them. My bouquet was stunning, the buttonholes were all unique, there was lots of variety in the bud vases and the milk churn arrangements for our ceremony were showstopping. Perhaps the best though were the gorgeous flower crowns made for our two flower girls - such delicate and beautiful pieces that have now dried really well.

One of my favourite parts of the planning was going to visit the flower farm about a week before the big day to see where our blooms were coming from and pick out some particular favourites. It's a stunning farm, surrounded by nature and looked after by two very passionate people! I'll definitely be buying bunches from Roz and Debs' farm in the future.

KIND WORDS

Thank you so much for the gorgeous flowers we had for our wedding last weekend, they got so many compliments and summarised spring in a bouquet perfectly.
