

FAREWELL FLOWERS

FROM THE WILD ZINNIA

It's hard to say goodbye. We know that when you can't find the words, choosing how we say goodbye is what matters. Using seasonal flowers from a loved one's garden, choosing flowers or colours that meant a lot to them say the goodbye we can't quite say.

We know that being entrusted with making farewell flowers is an honour and one that we take seriously. Whether you want to chat through some ideas with us, or leave us to choose the best of the season for you, we will work with you to say farewell.

UNIQUE AND INDIVIDUAL

We understand that losing a loved one is hard; and where to start on remembering a life well lived isn't easy. We have an list of our most popular arrangements; but everything we make is bespoke, because we are remembering the uniqueness of a loved one as we say our farewells.

All of our arrangements will be different because the flowers in season at the time are never the same. If you want to incorporate the well-trodden boots of a keen gardener; the Sussex trug of a mushroom forager who had spent every waking moment seeking the perfect Morel; or favourite fly fishing lure, carefully wrapped and always ready for a line.

GOODBYES THAT KEEP GIVING

As all our arrangements are designed for green burials we can incorporate living plants, bulbs or wildflower seeds into base of our designs. So as the fresh flowers fade, the plants and bulbs will take root and give pleasure for years to come.
