If you want the delight of arranging your own flowers for you day then we'd love to supply you with the most sustainable flowers money can buy.

Picked fresh to order and placed straight in cold water, our flowers are ready for you to use as soon as you've collected. There's no need to add preservatives, feed or re-snip stems. We suggest you order a half bucket to practice your arrangements and work out quantities needed. Our buckets have approx 40 stems.
